

CROWN INFORMATION for Arrival

Arrival of School Buses

Buses will unload students behind the Crown Theatre. Teachers and students will be met by a bus marshal and a concert marshal.

The concert marshal will direct students and staff along a yellow path through the car park to the base of a ground escalator.

The escalator will take the students up to the road level. They will then walk to the front of the Crown Theatre where they will be met by a Crown Theatre usher.

EQUIPMENT

Most schools have a myriad of equipment as part of their item. With the exception of small instruments such as recorders or flutes it will be too far for most equipment to be carried by students. The only alternative will be through the Loading Bay and up via the stage lift. The use of the stage lift must be requested beforehand.

On the day before the Concert equipment can be delivered during office hours to the loading bay between the hours 9:00am to 3:00pm

This will be inconvenient for schools to arrange but there are no other viable options.

Likewise after the concert material that can't be carried 300m will have to be taken out after the show down the lift or collected at 8:30 the following morning.

All schools are asked to consider their best options and then to inform their Managers so that we can inform Crown of likely arrival times. The Loading Dock, for security reasons is always locked and you will need to phone so that staff can open up.

To make or confirm arrangements contact Crown Technical Manager, Shona Treadgold on office 9362 8819, email shona.treadgold@crownpertth.com.au or mobile 0424 214 327.
